

TV TIP-OVERS

By the Numbers

Every **3 weeks** a child dies from a television tip-over.*

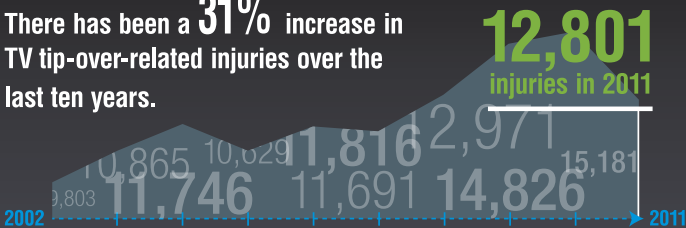

7 out of 10 children injured by TV tip-overs are 5 years old or younger.

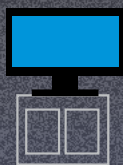

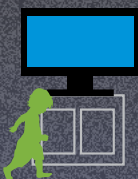

Every **45 minutes** a child visits the ER because of a TV tipping over.

There has been a **31%** increase in TV tip-over-related injuries over the last ten years.

Only one-quarter of adults take action to secure their TVs to a wall.

* Based on U.S. Consumer Product Safety Commission (CPSC) Report, average 2000-2010.
